- Specification

SMS?

SMS is India's leading chain of multi-brand Electronics and Electrical service workshops offering wide array of services. We focus on enhancing your uses experience by offering world-class Electronic Appliances maintenance services. Our sole mission is "To provide Electronic Appliances care services to keep the devices fit and healthy and customers happy and smiling".

How???

- **Through computers organization, IT Firms, Universites and Businesses etc.. can transact to their clients in a convenient way using advance technologies and specially the Web Application.**

- **The Web Application is created for Service Centre functions through this " Store Management System" Admin (Manager) can lessen their errors and efforts in every Customer Support processing and transactions and in making reports.**

- **It is Web Application which is developed in HTML, CSS, PHP & MySQL. The purpose of this Web Application is to manage the activities of service centre. Even a person can handle very easily; it means Web Interface is user friendly.**

Objective???

- **Practicality** : The software must be stable and can be operated by people with average intelligence.
- **Efficiency** : This involves accuracy, timeliness and comprehensiveness of the output.

- **Cost :** It is desirable to aim for a system with a minimum cost subject to the condition that it must satisfy all the requirements.
- **Portability :** The Web Application should be portable to all environments.

Customer Request Success

The screenshot shows a web browser window with the address bar displaying 'localhost/osms_php/Requester/submitrequestsuccess.php'. The page has a red header with the text 'SMS'. On the left, there is a sidebar menu with the following items: Profile (with a person icon), Submit Request (with a document icon), Service Status (with a list icon), Change Password (with a key icon), and Logout (with a door icon). The main content area displays the details of a submitted request in a table-like format:

Request ID	52
Name	Sam
Email ID	user@gmail.com
Request Info	Rode Mic Note Working
Request Description	my rode mic is not working properly

Below the table, there is a red button labeled 'Print'.

Check Status

The screenshot shows a web browser window with a single tab titled "Status". The address bar displays the URL `localhost/SMS/SMS/Requester/CheckStatus.php`. Below the address bar, there is a row of bookmarks including "Gmail", "YouTube", "News", "Translate", "Newton School", "Striver's SDE Sheet...", and "DSA Sheet - Le". The main content area has a red header with the text "SMS". On the left side, there is a sidebar menu with the following items: "Profile", "Submit Request", "Service Status" (which is highlighted with a red background), "Change Password", and "Logout". The main content area on the right contains the text "Enter Request ID:" followed by a text input field and a red "Search" button.
